

**REGIONAL PUBLICATION**  
**CONDITION OF THE CULTURAL AND NATURAL HERITAGE IN THE BALKAN REGION**  
**Volume II**

**Proceedings Guidelines**

**SUBMISSION OF MANUSCRIPTS**

**Deadline: December 31, 2009**

Proceedings will be multilingual, published in English and in languages of participants at the conference. You are kindly requested to send your manuscript both in English and in your native language. Papers should be accompanied by a short abstract of 150 words maximum, on both languages.

**Submit:**

1. **Hard copy** of the manuscript versions in both languages on A4 paper, one side only. Do not include any special formatting, except for page numbers. For typing characters in your native language, use keyboard. Tables and all illustrations should not be embedded in the text. However the text should include marks or notes where figures need to be inserted. All illustrations (photos, line drawings, charts, maps) should be numbered sequentially, beginning with 1 by order of appearance in the text (fig. 1, fig. 2; fig. 2, fig. 3, etc.). Do not number photographs separately from other kinds of illustrations.

2. **Disk** with textual files and illustrations. The disk should be clearly labeled with the name of the author and short title of the work.

Because of eventual delay of the post, you can also send text of the manuscript (without illustrations) by email on [seeicom@gmail.com](mailto:seeicom@gmail.com)

All **textual files** should be in .doc format.

**Illustrations** can be sent as photographs (on photographic paper) or in digital form. Digital photographs should not be processed, but sent in original format, as when downloaded from the camera. The size of photographs should be at least 3M (3 mega pixels). Photographs should be scanned (if you scan them yourself) in 300dpi resolution and in original size (size 100%). Line arts should be scanned in 600dpi resolution, in original size and saved as bitmap. All files should be saved as TIFF or EPS, except for line art.

Tables and illustrations should not be embedded in the text. Tables created in Word should be saved as separate files on disc and its place in the text should be marked (table 1, table 2, etc.). In the case of disk, each illustration should be in a separate file. In the case of hard copy, illustrations should be gathered at the back of the manuscript.

**Endnotes, references, figure and table captions** should also be gathered at the back of the manuscript. In the case of disk, they should be in separate files.

For **citations in text** use the author-date system, which gives the name of the author, year, and, when applicable, specific page numbers, not inclusive pages, in parentheses, for example (Thomson, 1978: 256-259). For works by two or three authors, all authors' names are given. When a work has more than three authors, give the last name of the first author followed by et al., for example (Balmelle et al. 1985). Citations for two works by the same author published in the same year should be as follows: (Michalski, 1987a, 1987b).

The **reference list** should include full publication information for all sources cited in the text and, where applicable, in the notes. Reference style needs to conform to author/date style of citation in the text, for example: (Tomson G., 1978. The Museum Environment, London: The Butterworth).

For citing **web sites**, give first the title of the site and then web address.

**Materials and Suppliers List** - For all specialized materials mentioned in the text, please provide an alphabetized list of materials that includes the name of the manufacturer and name and address of distributor, if different from manufacturer.

Proper **permission** must be obtained **to reproduce** all illustrations and textual material for which the copyright is not held by the author submitting the manuscript.
